

■ ■ Executive Audit Report: EU AI Act Compliance

High-Risk Clinical Decision Support System Assessment

System Name: Tuscany Triage System (CDSS)

System Version: v0.6.2

Target Regulation: Regulation (EU) 2024/1689 (EU Artificial Intelligence Act)

Classification: High-Risk AI System (Annex III, Section 5 - Healthcare)

1. Executive Summary

This Audit Report provides an executive-level evaluation of the Tuscany Triage System (v0.6.2) against the mandatory legal requirements established by Chapter II of Regulation UE 2024/1689. The system falls under the High-Risk category, requiring strict compliance with Risk Management, Data Governance, Transparency, Record-Keeping, and Human Oversight standards.

2. Compliance Matrix

Article	Requirement	Status
Article 9	Risk Management System (Safety upgrades & Shock Index)	COMPLIANT
Article 10	Data Governance & Quality (Input validation)	COMPLIANT
Article 12	Record-Keeping & Audit Logging	COMPLIANT
Article 13	Transparency & Decision Rationale	COMPLIANT
Article 14	Human Oversight (Human-in-the-Loop)	COMPLIANT

3. Key Audit Findings

- Human-in-the-Loop Integrity:** The system requires explicit operator confirmation before assigning any code.
- Mitigation of Automation Bias:** Incorporates a Clinical Congruency Alert to challenge subjective inputs.
- Auditability:** Maintains continuous time-stamped logs of all operations and manual overrides.
